April 1st, 2025,

Dear Valued Partner,

The current market is experiencing significant challenges due to escalating tariffs, a subsequent rise in demand for domestic materials, and significant inflation in energy and other manufacturing inputs. We are committed to delivering high-quality products and superior service in this dynamic environment. Despite our continued efforts driving efficiencies and increased productivity, we must implement a price adjustment to offset some of the inflation we are receiving.

Effective June 1st, 2025, nVent KING INNOVATION will implement a 3% average price adjustment.

Please note that actual percentages vary by brand and product class.

Orders received before midnight on May 31st, 2025, for delivery prior to June 7th, 2025, will be invoiced at the pre-price adjustment levels. Orders with delivery dates beyond June 7th, 2025, will be updated to reflect the new pricing.

We understand the challenges that price fluctuations create, and we remain committed to keeping you informed and providing the highest quality products and service. Updated price pages will be provided as soon as they are available. Should you have any questions, please do not hesitate to contact your local sales representative for further clarification or support.

We appreciate your continued partnership and support as we navigate these market changes together.

A handwritten signature in black ink that reads "Keith Semrau".
